Populated Districts Suffering Intensely.

Deaths in Chicago and Many Prostrations.

Is Traveling Towards Atlantic Coast.

(BY A. P. NIGHT WIRE.)

INGTON, June 9.—Intense heat caused suffering in densely populated districts continued today, that part of the country the Missouri Valley and the Mountains.

Temperature rose from 95 to 96 today, while in St. Louis, Ill., the mercury soared to 98.

Other points throughout the West sweltered under similar conditions, Memphis having a temperature of 96; Nashville, 95.

At Louisville in Southwest Tennessee record June temperature was equaled.

At St. Paul, Minn., the temperature was 96 on Monday and 97 on Tuesday.

A violent electrical storm with relief and clearing was experienced at Chicago.

Weather Bureau predicts weather in the Middle West temperature along the Coast tomorrow.

DEATHS IN CHICAGO. (BY A. P. NIGHT WIRE.)

AGO, June 9.—Three deaths from prostrations were reported by the police today, the first hot wave of 1914.

Temperature on the street was 96, one degree less than reported, while a humidity report was issued by the weather authorities.

That the worst of the heat wave was over and that a lower temperature might be expected for tomorrow.

## SOLVES PROBLEM OF HARBOR SILT.

More Money for Los Angeles Is Recommended.

Work Daniels Starts Tour of Coast Parks.

Programme of Fleet's Visit Remains Unchanged.

(BY A. P. NIGHT WIRE.)

WASHINGTON BUREAU OF THE ARMY. June 9.—The Senate Committee on Commerce has recommended that the amount for the maintenance of the Los Angeles harbor be increased from \$11,000 to \$75,000.

This increase would take care of the silt problem in the harbor.

The harbor question was last discussed by the board of engineers, Representative Stephens discussed with Col. Daniels the advisability of adding \$50,000 to the maintenance item and Col. Daniels advocated it.

According to the recommendation, the committee, and with such success, the recommendation was made.

Whether the item will be included in the bill will not be known until after Congress takes action on it.

PARK IMPROVEMENTS. (BY A. P. NIGHT WIRE.)

WASHINGTON, June 9.—The American revenue cutter Bear has been ordered to proceed from St. Michael's Alaska, to Wrangell Island for the purpose of rescuing fifteen members of the crew of the Canadian steamer Karluk, who are marooned on that island.

Chap. Bartlett of the Karluk is at St. Michael's and will accompany the Bear on its rescue expedition.

The Bear cannot enter the Arctic Ocean for at least four weeks, until the ice has broken up.

There are eighteen white men and four Eskimos in the camp on Wrangell Island. With the return of the wild fowl to the island food probably became abundant.

LOOK-UP FOR HARVARD. (BY A. P. NIGHT WIRE.)

WASHINGTON, June 9.—O. M. W. Sprague, professor of banking and finance of Harvard University, was named today as a probable appointee to the Federal Reserve Board.

It is generally known that Sprague is a native of Massachusetts, who has been a close student of financial affairs for years.

There was no indication tonight as to just when the President would send the names of his nominees to the Senate.

He said yesterday it would be done "in a day or two."

CONSERVATION MEASURES. (BY A. P. NIGHT WIRE.)

WASHINGTON, June 9.—Conservation measures advocated by Secretary of the Interior Lane are almost certain of passage by the House during the present session of Congress, according to information reaching the Secretary today.

A petition for a special rule for consideration of the measure has been circulated in the House and has received the necessary number of signatures.

BIG STRIKE BEGINS. (BY A. P. NIGHT WIRE.)

WASHINGTON, June 9.—The railroad strike which was to have begun tomorrow, was begun tonight at various points, including Ancona and Turin.

The night expresses were unable to leave Milan and Naples.

Strikers attacked the automobile of Prince von Buelow, the former Imperial German Chancellor, seriously damaging it. A barricade was raised in the Via Alessandria, near the Colosseum, and the strikers destroyed it.

IN NEW TROUBLE. (BY A. P. NIGHT WIRE.)

WASHINGTON, June 9.—President Wilson had a talk today with M. A. de Lorde, who took an active part in seeking to bring about official participation in the San Francisco exposition and who is now making a movement for an extensive exhibition of British in 1915.

President expressed sympathy for the project to erect a Pan-American pavilion at the exposition in which the British committee displayed its desire to cooperate.

CALL TO IOWA REPUBLICANS.

Convention to Be Held in Des Moines in July to Settle Contest for State Auditor.

(BY A. P. NIGHT WIRE.)

DES MOINES (Iowa) June 9.—State Chairman Charles A. Rawson of the Republican State Committee today issued a call for the Republican State convention to meet July 15, when the nomination of a State Auditor will be settled and the routine convention matters be given attention.

The delegates appointed to the convention totaled 1021, a loss of 105 compared to two years ago. The Progressive vote in 1912 is the cause of the loss.

## CALLS WILSON A BLUNDERER.

Tillman Scores His Course in Exemption Repeal.

Declares the Democrats Are Split Into Factions.

And There'll Be an Election Soon, Box-Wow!

(BY A. P. NIGHT WIRE.)

WASHINGTON, June 9.—The Senate marched steadily forward today toward final action on the bill to repeal the tolls exemption clause of the Panama Canal Act, but leaders were unwilling tonight to predict on which day a vote can be taken on the bill.

Even with a night session tonight there was no certainty of a vote on the first proposition to be disposed of, the so-called Simmons-Norris amendment qualifying the terms of the bill.

Senator Borah, one of the leaders of the anti-repeal forces, predicted this amendment alone would be debated for four or five hours. Action within the next day or two, however, hardly can be avoided unless there is an unlooked for filibuster on the part of the anti-repealers.

TILLMAN USES PITCHFORK. (BY A. P. NIGHT WIRE.)

WASHINGTON, June 9.—The debate today followed the old lines laid weeks ago, but Senator Tillman of South Carolina made an unusual speech criticizing the President in discussing the President's demand for bringing the tolls issue before the country at this time and endangering the chances of the Democratic party in the Congressional elections next fall.

Senator Tillman announced he would vote for repeal only because he felt his State party convention had freed him from the tolls issue in the Baltimore platform.

"It strikes my common sense and I have been unable to understand why he projected the fight on his party at this time," Senator Tillman said in discussing the President's demand for bringing the tolls issue before the country at this time and endangering the chances of the Democratic party in the Congressional elections next fall.

## SMITH OPPOSES REPEAL.

Senator Smith of Michigan resumed his speech in opposition to the repeal bill and criticized Senator Root for favoring repeal of toll exemption.

He declared the Senator helped prepare the first Hay-Pauncefote treaty, which was put to its death by overwhelming American indignation.

"I wish the Senator from New York were here so that I might ask him if he approved its death," Senator Smith declared. At that instant Senator Root entered the chamber, and Senator Smith repeated his remark.

"I did approve of its death because it did not afford the United States an opportunity for military protection of the canal," said Senator Root.

Senator Root added that while he was a member of the Cabinet at the time, the treaty was submitted to the Senate he had no knowledge of the treaty until it was sent to the Senate.

Senator Smith insisted that the tolls repeal was urged by the President to make an ally of England in the Mexican situation of the measure.

"If the United States would only give the A.B.C. mediators a free hand, the occasion for the passage of the bill would be removed," said the Senator.

RIGHT OF WAY FOR BILLS. (BY A. P. NIGHT WIRE.)

WASHINGTON, June 9.—With the approval of the House leadership, a supplementary legislative programme for the present session, embracing few conservation measures, was outlined in a resolution introduced today by Representative Foster of Illinois.

The Rules Committee will meet tomorrow and probably will report a rule to provide for immediate consideration of the measure.

Under the proposed rule each of the bills would be considered in the House as in committee of the whole, where, after general debate, it would be subject to amendment under the "five minute rule." Then it would be laid aside for final action upon completion of consideration of all in "committee of the whole."

The programme proposes this order: Alaska coal leasing bill

This image shows a dark, textured vertical strip, likely a book cover or endpaper. The material has a grainy, fibrous appearance with subtle variations in tone, ranging from deep black to dark grey. There are visible signs of wear, including small white specks and faint, irregular lines that suggest handling or age. The overall texture is rough and uneven.

## STARTING TODAY ON SWIFT TRIP.

**LOS ANGELES MERCHANT TO GO FAST AND FAR ON LAND AND WATER.**

Twelve nations will be visited and 20,470 miles traveled in a whirlwind transcontinental and European trip of forty-three days on which J. J. Haggarty, proprietor of the New York Cloak and Suit House, will start. Mr. Haggarty will be accompanied by Mrs. J. J. Haggarty, Miss Marie Haggarty, Miss Winifred Haggarty, and Miss Alice Griesinger. Taking the fastest cross-country train on the first leg of his journey, Mr. Haggarty will make one of the speediest trips in California commercial history. During his entire journey he will travel only by the fastest means, using the swiftest trains, the largest trans-Atlantic steamers, high-powered automobiles and the famous Zeppelin airship line running from Baden-Baden to Dusseldorf, Germany, 150 miles.

Through primarily on a business trip to pick the cream of fashions from the European markets for Los Angeles women, Mr. Haggarty will also add a few pleasure tours to the fast combination.

Taking four days for his transcontinental trip, the merchant will use the steamer Vaterland for crossing the Atlantic. After visiting England, Scotland, Ireland, Wales, Germany, Belgium, Holland, Austria, Italy, Switzerland, Spain and France, he will begin the return voyage to America, sailing on the steamship Imperator, July 19.

The party will leave La Grande Station this afternoon at 1:10 o'clock.

## JUDGMENT REVERSED.

The District Court of Appeal has reversed the judgment of the Superior Court in the suit brought by A. J. W. Ross, Sarah A. Stager and others, against Charles H. Thomas, Rev. C. H. Hoyt, flopped to the Presbyterian faith, establishing themselves as the First Presbyterian Church of Eagle Rock. And now half the members are back in the little church, under the name of the First Congregational, and the other half are searching for a place to worship, churchless and pastorless, for the minister flopped back with his half congregation.

It was a contented Congregational congregation that lived in Eagle Rock. It had established the only church there, a picturesque little edifice, entirely adequate to accommodate the ninety-six members. For years a Congregational minister had led the flock. Recently it has been the Rev. Mr. Hoyt.

Occidental College has been established in the Eagle Rock Valley. The members of the Church of the Good Shepherd, foregathered, and came to the conclusion that the arrival of Occidental College would be coincident with the arrival of a Presbyterian family. As a result, they predicted, demands would be made there for a Presbyterian Church. And why should there be a Presbyterian Church, they asked, and a Congregational Church, also? It would be a needless expense and investment, they agreed.

So they searched the tenets of the Presbyterian faith, found only a minor difference between that faith and the one they espoused—indeed, that the Congregational is an offshoot of the Presbyterian faith.

## DEATH-WATCH CAT GIVEN NEW HOME.

**POE-ESQUE ANIMAL WHOSE CHIEF FOUND MASTER'S BODY IS HAPPY NOW.**

Jake, the black cat whose wails led neighbors to the dead body of Frank Hamble of No. 216 West Sixty-ninth street, after life had been extinct a week, yesterday found a new home. He slept for hours in the sunshine, apparently unmindful of the harrowing hours spent shut in the room with the remains of his late master. Neighbors adopted the cat when, almost starved, it was taken Sunday from the little two-room house where Hamble passed the last hours of his life. Jake was almost a skeleton and great care had to be taken at first in order not to overfeed him, but yesterday, stretched in a rocking chair, his sides bulging, and his big green eyes closed to mere slits, Jake was the picture of contentment.

Hamble's mother, Mrs. F. A. Saunders, offered to care for the sole companion of her son for many months prior to his death, but when she found Jake apparently happy and content to remain with a neighboring family, she left him in his adopted home.

The body of Mr. Hamble was found by Patrolman Johnson after the mournful cries of the cat had aroused the police officer, considering him a something was wrong in the little cottage.

## BABY DRINKS BOILING TEA.

Child's Throat so Terribly Scalded by Liquid that Death Comes in a Few Minutes.

A pot of scalding hot Russian tea so terribly burned the tiny throat of two-year-old Wana Hannstoff, daughter of Mrs. Ivan Hannstoff, No. 124 South Glass street, yesterday, morning, that the child died in a few minutes. The mother placed the boiling liquid in the stove to steep and turned her back for a moment when the child clasped her hands and drank from the spout.

The child cried in agony. A physician was summoned and the Rev. Charles H. Thomas, called, but the little one expired before either arrived. The child's throat was terribly burned, and death was due to choking.

## HUSBAND ASKS FOR DAMAGES.

**Accuses a Police Lieutenant of Stealing His Wife.**

**Officer Makes a Denial, Says It's a Frame-Up.**

**Others in Department May Be Involved.**

Lieut. David L. Adams is to be suspended from the police department today, when a copy of a sensational complaint filed against the officer in the Superior Court yesterday is obtained by Chief Sebastian. The Chief made this statement last night. The charges are made in a suit brought by Earl G. Hamlin for \$25,000 damages. In the complaint Hamlin alleges that while he acted as a friend to the husband and wife, Lieut. Adams alienated the affections of Mrs. Hamlin and induced her to be unduly friendly with him.

Since Velma A. Hamlin, the wife, was Velma Windish, a little girl, she was known Lieut. Adams. While she was a child Lieut. Adams was a neighbor and called often at the girl's home to visit with her parents.

A number of years ago Lieut. Adams moved from that neighborhood and their acquaintance was interrupted. It was resumed again eight months ago when Mrs. Hamlin returned to Los Angeles to live, after she had married to Hamlin. She was the mother of a boy 6 years old.

While riding on a street car soon after she had returned to the city she saw Lieut. Adams, and at once introduced her to him. The two talked a few days that they had known when neighbors years ago, and began the new friendship that has resulted in the sensational climax in court.

Mr. Hamlin's complaint recites that he noticed a coolness in his wife's affection for Lieut. Adams, and that she met Lieut. Adams on the car. The complaint continues that her affection for the husband continued to wane and their relations reached a crisis a few months later, in April, 1913.

In discussing his troubles yesterday Mr. Hamlin said that Lieut. Adams pretended to be a friend to both the husband and wife. Because of this friendly attitude of the police officer, Mr. Hamlin said, he went to him as a counselor and friend, and asked Lieut. Adams if he would not undertake to bring about a reconciliation.

It was at the time that the crisis came, Mr. Hamlin said, that a sensational joy ride occurred which furnished him material for his complaint. Mr. Hamlin alleges that Lieut. Adams and Mrs. Hamlin went on a reckless trip to a neighboring town. With them, according to an affidavit in his possession, which was not filed with the complaint, Mr. Hamlin says, were three patrolmen and two other women. The affidavit recites that the party spent the night in the near-by town—San Bernardino.

Mr. Hamlin's complaint continues with the allegation that Lieut. Adams had induced Mrs. Hamlin to leave her home and take up her residence near the place where he lives, at No. 518 North Figueroa street. There, the complaint charges, Lieut. Adams was too friendly with Mrs. Hamlin.

Lieut. David L. Adams.

Against whom a sensational action was brought in court yesterday, and who is to be suspended from the police department today. Three patrolmen are accused in connection with the case.

## BONDSMAN UNEASY.

**Ex-Tuna Packer Charged With Mail Frauds Must Appear in Court to Plead Last He Got Too Far Away.**

Notice has been served upon George E. McCullough, attorney for Charles E. Williamson, former president of the National Tuna Fishing and Canning Company, now at liberty on bail of \$2000, on a charge of using the mails to defraud, to have his client in the United States District Court next Monday to plead.

In the meantime Mr. McCullough will try to locate Mr. Williamson, who at last accounts was in Dallas, Tex., in company with L. D. Cannon, an attorney, whose wife gave the Equitable Surety Company a trust deed on her home in Boyle Heights to secure the corporation in going on the bond. Information has been brought to the Federal officials that Williamson might forfeit his bond, and his attorney is therefore given notice that Mr. Williamson must be in court Monday without fail. Mr. McCullough said he did not know whether Mr. Williamson had left or not, but admitted that Mrs. Cannon was becoming nervous over the situation, and that he is endeavoring to locate him. Mr. McCullough said he had not heard from Mr. Williamson for some days.

## ONE KIND OF A DEBT,

THE First Congregational Church of Eagle Rock lost half its members recently, but it made church history. For many years it had been the Church of the Good Shepherd, of Congregational denomination. ## CHARGING HUGE TIMBER FRAUDS.

Government Unlimbering Its  
Batteries in Earnest.

Oregon Railway Cases to Be  
Fought Out Here.

Bitter Resistance Made to  
Attempted Extradition.

The hearing of the charge against Sidney L. Sperry of Strawberry Park, Indicted by the Federal grand jury at Portland, Or., with J. W. Logan, Dan J. Connors, W. A. S. Nicholson, Norman D. Cook, R. F. Fairchild and Fred Brantner with using the mails to defraud, began before United States Commissioner Williams yesterday afternoon. Sperry will make a vigorous fight against removal to Portland for trial.

Postoffice Inspector Warren of San Francisco, who is here as a witness and who is familiar with the operations of what is known as the Oregon and California railway crowd, is authority for the statement that more than \$1,000,000 was cleaned up by the operators. They have worked extensively in the Pacific Coast States and as far east as Illinois, soliciting applications through them to purchase quarter-sections of the Oregon and California grant lands in Oregon and collecting "bills fees" from each applicant, usually \$110 in advance.

They assumed, it is alleged, to locate the applicant on 160 acres, file his application, securing him a preference right to purchase is thereby acquired on account of which he will obtain a good title upon the application paying either the railroad company or the government \$2.50 per acre when pending litigation is ended, which, they advise him, will not be longer than six or twelve months. He is further assured, it is declared, that actual settlement is not required.

As an inducement, they require a signed option on the timber, agreeing to pay a fixed price per 1000 feet upon the applicant acquiring deed, also assuring him their attorney will give all necessary legal attention. As a result, the applicant will acquire 160 acres of valuable land, also receive several thousand dollars' proceeds of the timber, after the purchase price of \$110 per acre is deducted therefrom and paid the grantor.

It is also charged by the government that these men have worked singly and in pairs from a local hotel or real estate office, sometimes advertising in local papers "timber claims," "railroad lands" or "relinquishments," use maps, plat, timber views, law books, etc., to explain the proposition, also paying a commission of from \$10 to \$15 per applicant on business secured from friends of those who become interested.

Dist. Atty. Schomberg, on the part of the government, offered a copy of the indictment returned by the Federal Court of Oregon and with the acknowledgment on the part of Sperry that he was the man named in the indictment, rested his case.

Mr. Sperry went on the stand in his own defense. He said that he had lived at Strawberry Park for the past nine years, that he is 47 years of age and that the only thing he ever had with any of the defendants was with Fred Brantner, although he had been indirectly connected with Mr. Cook. Mr. Sperry admitted that he was furnished applications for the land by Mr. Brantner, for which he paid him at the rate of \$110 each, but

denied that he had used any misrepresentation in making sales of the railroad land. He said that he explained the condition of the property, and advised his clients that it was a good gamble. Mr. Sperry claimed that he had taken advice before engaging in the business and among others whom he mentioned as having been consulted was ex-Dist. Atty. McCormick. He had filed a claim in behalf of himself and wife for a quarter-section, and believed he had a right to do so under the act of Congress of 1864, that granted the land to the railroad company.

It is alleged by the government that Messrs. Brantner and Sperry had an office in the Consolidated Realty building in this city from January 1, 1913, to February 1, 1914. Mr. Sperry admitted that he had office room with Mr. Brantner for some time, but said that he was open and above board in all his dealings with prospective applicants for the railway lands, and thought so well of the proposition that he invested in an application for himself.

TO BOOST INCOME TAX.

Uncle Sam Smells a Rat in Methods of Figuring Net Profits of Corporations and Gets After 'Em.

Former Collector of Internal Revenue Parker has just returned from Washington, D. C., where he has been for some time presenting arguments in favor of a change in the regulations which prescribe the method by which certain classes of corporations must arrive at the net annual income to be reported to the government.

It is intimated by the revenue department that from \$60,000 to \$100,000 persons in the United States who are liable for a tax of from \$1 to \$50 under the provisions of the income tax law, failed to make returns by reason of making improper deductions bringing their net income for the ten months of 1913 below \$2500.

It will be recalled that, while collector, Mr. Parker was successful in securing a ruling in behalf of the oil interests, which reversed all deductions formerly rendered by the revenue department, and saves the oil industry of California alone hundreds of thousands of dollars in taxes.

BEAT THE COUNTRY.

Los Angeles District One of Few Which Will Not Disappoint Government in Income Tax Total.

When it comes to taking in money the average man would hardly express a preference between cash and a certified check, but Internal Revenue Collector Carter is partial to the certified check. If cash payments are made, it necessitates preparing a receipt, and in the rushing last days of the income tax payment every minute will count.

The receipts are in serial numbers, which makes it more convenient to send them to taxpayers as the big finance firms will wait until the last few days of the present month before they become delinquent.

The collections for the local district, when completed, will go far beyond the expectations of the government, which is a very satisfactory condition, especially as the money is being returned throughout the country have fallen far below the estimates of the Treasury Department.

The greatest anxiety is being maintained as to the payments made. The returns of the heavy taxpayers are being especially guarded.

At Venice.

## AEROPLANE IS THROWN IN WITH "TIMES" JOY RIDE.

THE newboys who enjoyed yesterday's outing to Venice as guests of The Times were treated to one thrill more than the regular number which go with the various concessions. As the children were enjoying their lunch on the sand, a big aeroplane with Frank Sikes at the helm, came swooping over their heads. With shouts of glee the youngsters waved at the nifty bird-man, when suddenly something went wrong with one of the giant wings of the air craft and Sikes quickly volplaned to the beach.

The newboys gathered about the aeroplane and helped run it up the sand, which in itself was a great honor and one long to be boasted of among the other "paper merchants." Accompanied by their teacher, Mrs. N. O. Williams, eighteen of the newboys from the "Newboys' Home" and thirty-one children from the Castelnau school, went on The Times' joy-ride. The boys and girls had a splendid time. Lunch on the smooth beach was thoroughly enjoyed; then came the first measure of happiness, however small.

## "THE TIMES" SCHOOL OF DOMESTIC SCIENCE.

Madame Housewife has never cooked cucumbers she should immediately try one of the delicious recipes that Mrs. Bertha Haffner-Ginger demonstrated to The Times class in domestic science yesterday. Cucumbers cooked as they were yesterday certainly deserve a prominent place on every menu.

"The cucumber contains no acid," Mrs. Haffner-Ginger told the class yesterday, "and if you can afford it, just cook them in cream or rich milk and see how delicious they really are," then she proceeded to prepare some and served them with a rich creamy white sauce.

Yesterday was the day when the class was instructed in preparing summer dishes, and such a good lesson it was!

Of course there was a Dutch lunch platter, which was just as appetizing as it possibly could be with rows of cheese and olives and cold meats arranged in fancy designs.

birds are in full plumage, and where a number of blue-blooded horses are being exhibited. Such sights always interest the boys and the unsightly birds were the cause of much excitement among the smaller "newbies."

"Chinktown," with its realistic interior that seems to only lack the smoky odor to be a real oil pump joint, and "Rubetown," with its dark, underground corridors and many doors, followed, and the boys heartily applauded each unexpected happening. Then a ride in the flat-bottomed boats that graze the bottom of the winding flume at the "Rapids" was the last treat of the day, the boys having returned to Los Angeles in time for their daily work.

Every day the big Times truck carries a band of happy children to Venice, where an enjoyable outing had. There are so many interesting attractions for the children and each is so safe that the time spends on joy-riding seems to fly. The boys and girls who have had only a wee bit of the pleasures of life and who have known enough of the hardships to enjoy any measure of happiness, however small.

## "TIMES" CAMP AT AVALON TO OPEN IN THREE WEEKS.

THE TIMES Catalina Island Camp for Boys, the criterion of summer vacation camps for still-water bathing, hunting, fishing, boating, hikes and many other sports, will open its doors for its fourth summer to the boys of Southern California who have been successful in their subscription efforts on June 22.

It is the object of The Times to locate these vacation trips where all varieties of sport can be indulged in, so that every one who goes will come home entirely satisfied. There is no place equal to Catalina for such a purpose.

New boys as well as the old boys have adopted the slogan, "The Times Camp for mine," and for the past two weeks The Times office has been flooded with subscriptions from the boys of every near-by city.

The Times has just returned from a short tour of Fullerton, Orange, Santa Ana, Corona, Riverside, Colton, Highgrove, Hemet, Perris, San Jacinto, San Bernardino and Redlands with glowing reports that these towns will be doubly represented this year. They are organizing their own baseball nines and track teams to compete in the many events to be held at The Times Camp this vacation.

The camp manager will be glad to publish any challenge and line-up sent in by the manager or captain of camp.

## WHITE-RIBBONERS BAR SHAM NAVAL BATTLES.

AFTER an enthusiastic session lasting five days the thirty-second annual convention of the Southern California W.C.T.U. closed yesterday afternoon.

Yesterday was a busy day with the temperance workers, the morning being devoted to the reports of the superintendents of different departments, the election of new superintendents, and trustees; the awarding of banners and the report of the Committee on Resolutions.

With three exceptions the county presidents were re-elected. The changes were: Kern county, Mrs. George D. Robinson; San Bernardino, Mrs. Lillian M. Maxwell.

The trustees were all re-elected. Three changes were made in the board of trustees of the Southern California Home for Women and Children, Mrs. Jennie Stephenson of Long Beach, Mrs. Evie Cook of Whittier, being elected in place of Mrs. Elizabeth E. Thomas of Los Angeles and Mrs. Joanna Allen of Pasadena.

Mrs. Clara B. Sheldon of Ontario was elected superintendent of the anti-narcotics department in place of Mrs. S. R. Ferris, who has been sick for some months. Other changes were made in the department superintendents as follows: Mrs. Wheeler of San Diego, superintendent of institutes; Miss Cornelia A. Teal, superintendent of press; Mrs. Lizzie Warren, social and red-letter day; Mrs. Della B. Irvine, superintendent of the world's missionary temperance fund, the new department created during the convention.

A resolution censoring one of the proposed concessions for the San Diego Exposition was adopted, the convention voting to request the board of directors of the exposition to change the ending of a proposed performance which was being designed to show the Panama Canal and which was to conclude with a naval battle between the American and Japanese fleets.

ONE WAY AT A TIME.  
S. C. Pratt, president of the Provident Realty Investment Company, cannot be prosecuted civilly and criminally at the same time for the same or alleged offense, and neither can any other man, declared Justice Young yesterday in dismissing an embarrasing charge against Mr. Pratt. Horace W. Bowman, in behalf of his wife, Henrietta Bowman, charged the defendant with defrauding her of \$125 which Mrs. Bowman had given him to advertise the sale of property.

It was on the roof of the store and saw some of the employees take the money out of the cash register and hide it under a board and cover the board with sawdust. That's how we were familiar with the hiding place."

Both men admitted that they had a long list of places which they were to have looted. They asserted that these stores had been singled out by Sam Martrunas, and they charged that he agreed to get rid of the loot. The statements of the two men, with the discovery of stolen goods in the Martrunas home, led to the filing of a complaint charging him with the receipt of stolen goods.

Today a dozen storekeepers will be asked to visit the Sheriff's office and identify nearly a carload of goods that have been gathered by the Sheriff and his men.

"We are after other members of this gang," said Sheriff Hammel last night. "The confession of the two men now in jail has helped us materially in recovering stolen property and reaching out for the others of the gang that has terrorized many communities since the first of the year."

NO FORGIVENESS THERE.  
R. E. Mills, insurance broker in the Douglas building, was yesterday freed from a forged charge preferred against him by T. C. Scott, also an insurance man. The prosecution asked for a dismissal of the case in Police Judge Williams' court. Scott alleged in the complaint that Mills forged a check in Scott's name for \$21.85.

Planning for the  
Stork's Arrival

Among those things which all women should know of, and many of them do, is a splendid external application held in the name of "Mother's Friend." It is a penetrating liquid and many a mother tells how it so wonderfully aided them through the period of expectancy.

Its chief purpose is to render the labor, ligaments and muscles so pliant that nature's expansion may be accomplished without the intense strain so often characteristic of the period of expectancy.

At any rate it is reasonable to believe that since "Mother's Friend" has been a companion to motherhood for more than half a century no more timely advice could be given the inexperienced mother than to suggest its daily use during expectancy.

Ask at any drug store for "Mother's Friend," a penetrating, external liquid of great help and value. And write to Bradfield Regulator Co., 303 Lamar Bldg., Atlanta, Ga., for their book of useful and timely information to expectant mothers. It contains many suggestions that are of interest to all women.

BY OLIVE GRAY.

THE GOOD HOUSEKEEPER'S HINT: To the water in which you boil the kitchen towels add the rinds of lemons which you have left after using the juice, and the towels will be snowy white and every stain will be completely removed.

Another Hashimura Togo story, if Wallace Irwin did but know it! A lady out in the Wilshire district had just completed a fine residence of concrete and when the vines along the porch began to climb she tried many methods of fastening them to the columns, none of which were successful. Being of an inventive turn, she at last thought of a way. She purchased a lot of chewing gum and found, upon experiment, that when chewed to the "soft ball state," this answered the purpose very well. She had but commenced the operation when she was suddenly called by a telegram to the sickbed of a relative. There was all that gum and her farewell request to the family was to "chew up that gum and with it paste up those vines." Now it happened that no member of that family had a penchant for chewing gum, but, on the contrary, detested the habit. They thought of the new Japanese boy and requested that he complete the job begun by the lady of the manor. Of course there should be a calamitous ending to the story, but that must be left to Mr. Irwin, together with the usual ending, "wishing you the same."

By the Blind Children. In that charming little art shop in the "sky arcade" I saw such a pretty collection of baskets which were made by the children of the State Blind Asylum. The baskets are sent out on consignment and the proceeds are used to defray the individual expenses of the little ones while they are being educated. So, you see, when buying those baskets you are not only securing something of exceptional interest, but are assisting a good cause. One particularly interesting basket was a flat, tray-like shape with a tall handle. This was for the purpose of carrying while gathering flowers, the long stems being easily placed lengthwise of the tray.

A Wee Bridal Gift. A useful and inexpensive gift for the bride who will keep house is a set of jelly labels in a pretty, hand-painted case.

And Another. Another pretty gift for the bride is a set of cambric tapes which the handy girl may easily crochet. These, when placed in a cardboard case with a dainty hand-painted flower upon its surface, make a gift worthy to come from any intimate friend. Either tassels or crocheted balls are used to terminate the cords, which may be

America for Style. "Here in Vienna," writes the foreign buyer of one of the big Broadway stores, "I miss the style which we are used to in America." From all directions we hear that our women are the best-dressed women in the world.

Sashes for Bath Dresses. The latest addition to the beach toilet is the Roman sash which is

made from rubber in brilliant stripes and which is worn around the waist and tied carefully at the front. The time when just anything will do for beach bathing has gone by, as witness the many accessories of the bathing suit, such as the corsage bouquet of rubber flowers, the flowers of similar style on the bathing cap and now, the new and beautiful sashes.

These rubberized accessories are sometimes used with the knitted jersey suits and again they form a part of the modish silk suits which have the characteristics of the season's dress in cut and frills. A silk bathing suit recently observed, had the long tunic edged with ruffles, and the long shoulder seam which characterizes the best blouses.

No "Hard Times" There. The proprietor of one of the leading Broadway houses tells me that in his establishment they do not know the term "hard times." The atmosphere in the place bears him out, too. In talking over the occasion which leads people to use the word "times," he said: "It is an actual fact that in this store we have employed at this time, about 150 more persons than we had at this time last year." This is the best of proof that things are not as bad as some would lead us to believe; or else it pays to think them good and to thus make them so.

Fashion's Intimations. The Watteau-shaped hats have rich pompadour ribbons for trimming. The best hat to choose for a tailor-made suit is the high shape of fine straw, with a tall ostrich quill. Tiny sailor hats with rows of wings poised around the crown are among the newest.

Pique guimpes and collars are enjoying great popularity. Boilers are so varied, a chapter might be written about them. The newest and prettiest red is called bestroot.

Plain linen coats and skirts are immensely improved by rich girdles of pompadour ribbon. Fanner gowns are seen made altogether of Roman striped silk.

With the cape style, which many jackets affect, the Italian note prevails over the oriental.

The absolutely plain robes, beltless, like Egyptian tunics, are very chic.

OUT OF THE ASHES. Although he burned the check which he is alleged to have forged, J. P. Verdugo was yesterday held to the Superior Court by Justice Savage at Lankershim for attempting to pass a forged instrument. Deputy District Attorney Heinicke conducted the prosecution. The accused, who had been out of San Quentin only a month, presented a check for \$48 at a Lankershim store and received a small amount of groceries in return. The check was turned down by the storekeeper and at the bank, and the writer burned it, later being arrested. He is charged with having forged the name of his employer, George H. Prince.

### IT'S UP TO ME NOW TO SELL THESE PIANOS!

Mr. Eilers' instructions were simple in the extreme. Three words cover them. "SELL THESE PIANOS!" And then he added, "Barnes, you haven't failed me yet. You see how I'm fixed. I've simply GOT to go back to Oregon today—right now. I'm going to leave the whole store and the stock and its management and its selling to you.

"But I want results. And because I want them so badly, I'm going to give you an absolutely free rein!

"I don't care what sacrifice you make or how much money I lose. But I want every piano on these floors turned into cash or negotiable security inside of the shortest time on record."

That's all he said. And it's enough. I have my instructions. And I'm going to follow them.

Note the prices I have put on these pianos, and then, if ever you expect to own a piano, and if the saving of \$100 to \$500 is an object to you, COME! Participate in the wonderful piano bargains which Mr. Eilers' emphatic orders have enabled me to give.

### GIRL IN OFFICE A HOMEBREAKER?

THAT'S THE ALLEGATION OF A WIFE SUING DENTIST FOR MAINTENANCE.

A letter received in the mail February 5, 1913, sent Mrs. Mame C. Uhl in a much-perturbed state to the office of her husband, Dr. William Tremper Uhl, a dentist in the Severance Building.

The letter, Mrs. Uhl states, referred to close relations between Dr. Uhl and Lulu. When she reached the office she alleges that she asked the doctor for an explanation. She says he flippantly disregarded and scoffed at her.

Then Mrs. Uhl states that Lulu Bedelle, in an affectionate manner, addressed the doctor.

"Do you love me, doctor?" "Of course I do," the doctor replied, so Mrs. Uhl asserts.

Subsequently at their home, No. 1620 Third Avenue, Mrs. Uhl says Dr. Uhl stormed and raved furiously, warning about the trip a few weeks later. When he was at Avalon, she says she was ill in bed.

Dr. Uhl, she alleges, became violent and abusive, exhibiting a revolver and saying: "I want to know what you are going to do."

Mrs. Uhl asks the court to restrain her husband from visiting, speaking with or interfering with her or their child, Virginia Grace Uhl, 7 years old, and \$250 attorney's fees. She is represented by Attorney Moore Moore.

Whereas the water right offered for this tract of land is the best water right in Southern California, and

Whereas the land offered is soon to become a part of a greater Los Angeles, by annexation, and

Whereas this greater Los Angeles is the logical center of the citrus industry of the State and with Los Angeles pays the great proportion of the tax levied by the State for the maintenance of its institutions, therefore be it

Resolved that we do recommend to your honorable board of regents that this institution be located within the bounds of greater Los Angeles, believing that by so doing you will better serve the citrus industry of the State; and be it further

Resolved that a copy of these resolutions be sent to Dr. E. J. Wheeler, Berkeley, California, president of the university, and to R. H. Tausig, San Francisco, California, chairman of the committee.

The personnel of the class is as follows: Wilbur Adams, Edgar Adamson, Charles Bacon, Stanley Barnes, Leon Perry, Alden Bissell, Edith Blatz, Edward Bowyer, Clayton Brewer, Heber Clewett, Clay Cox, Ralph Ford, Lawrence Gantz, Garner Groves, John Hall, Earl Jones, Edward Kennedy, James Nisbet, Russell Parker, Russell Smith, George Stirling, Edmund Stone, Bernard Victoria, Elwyn Welch, Morris Kirkpatrick, Misses Esther Baker, Edith Baller, Flora Balmat, Ruth Beale, Esther Beale, Mattie Bowler, Gladys Bowyer, Helen Brehaut, Maud Brenner, Lily Carter, Fern Cavanaugh, Rebecca Crawford, Mabel Deaton, Frances Edgar, Alma Evans, Harriet Evans, Dorothy Fellows, Ruby Gantz, Noma Gilbert, Ermine Groves, Gertrude Hall, Irene Hall, Gertrude Harris, Fay Howarth, Evangeline Hymer, Ethel Jones, Lucile Jones, Vesta Frier, Gladys Kistner, Elizabeth Leach, Agnes Lou, Leni Mock, Nellie Nye, Marian Mosher, Mary Miller, Emma May, Grace M. MANY SMALL THEFTS. Sneak thieves are at work here and the local police force is making special effort to apprehend the offenders.

A number of heroes who have been their bugles or automobiles standing on downtown streets after dark have returned to the vehicles to find missing packages, lap robes, suit cases, whips and other articles. It is thought that an organized gang is at work.

The Pomona Women's Club has adjourned for the season, following a large gathering at Parish House on South Thomas street, at which Mrs. J. D. H. Brown of Santa Monica and Mrs. A. R. Young of Venice, both among the founders of the club when it was organized twenty-two years ago, were present at special guests.

Two visitors were each presented with a souvenir spoon engraved with the club's monogram and Mrs. Edith Wood, the club president, was presented with a similar spoon. Mrs. Mel Campbell, who is the only charter member of the club now residing in Pomona, was likewise the recipient of a club spoon in acknowledgment of her active interest in the club work for years. All of the women honored made clever addresses of response and after an enjoyable luncheon adjournment was taken for the summer months, during which many of the members are planning long vacation trips.

Wide Range of Made-in-Los-Angeles Goods—Lengthy List of Entrants for Industrial Procession Monday—Vandeville on Wheels to Be One of Special Features.

The Nimble Dollar still continues on his sprightly way, with interest now centered in the big industrial parade for Monday, and in the grocers' home-product exhibit.

"Resolved that the people of Los Angeles and Southern California," said a pronouncement of the Prosperity League, yesterday, "awake to the possibilities here and now of our wonderful city and country; that they not forget that Los Angeles was built on optimism and faith in our enterprise; and that the week of June 8 to 12 be a week of mutual recognition of our present greatness and the tremendous undercurrent of affairs, private and public, making for prosperity that is ours by right of initiative."

Entries for the industrial parade are coming in thick and fast. Chairman Francisco of the Parade Committee, reports that practically all the motion picture companies are to contribute features. Some of the theaters are also planning to give short vaudeville acts on the decks of trucks.

With \$600 in prizes offered for the best show-window displays of made-in-Los-Angeles goods this week, over 300 grocers are found among the exhibitors. Secretary of the Retail Grocers' Association started the rounds of the groceries yesterday to get a preliminary line on the exhibits for judging purposes. He reports that it was an eye-opener even to him, to see the varied line of grocery goods produced here.

Entrants for the industrial parade up to yesterday include: W. A. Beatty Company, Hawley, King & Co., Oil Drill and Supply Company, Pioneer Paper Company, Weber Show Case Company, Feather-weight Trunk Company, John's Pipe Shop, Blake Moffitt & Towne, Newell-Matthews Company, Baker & Hamilton, W. P. Fuller Company, Zellerbach Paper Company, Sperry Flour Company, American Express Company, Wells Fargo Express Company, Diamond Coal Company, Kellogg's Paste Company, Los Angeles Milling Company, Los Angeles Desk Company, Weaver Roof Company, Los Angeles Ice and Cold Storage Company, Anchor Plastic Stone Company, Riverside Portland Cement Company, Fruit Products Company, Motor Truck Company, Oil and Varnish Company, Van and Storage Company, Logan, the Hatter, Mitchell Auto Company, Union Lime Company, California Works, Woodstone Marble and Tile Company, Herringbone Metal Lath Company, Tay-Mac Company, Pittsburg Oil and Varnish Company, Bass-Hueter Paint Company, Woodhill-Hulse Company, Mission Fixture Company, Bradley Wine Company, Y.M.C.A. Los Angeles Show Case and Fixture Company.

ENTRANTS CHECK. As long as there was a question of the legality of the parade, the board of supervisors sprang into action. The board yesterday, for the first time in its history, held a public hearing on the matter.

# Honus Wagner NOT DEAD YET.

Veteran Makes Hit Number  
8000 in Game.

## Adrian Anson Is His Sole Rival.

## Gets a Big Hand When He Does It.

(BY A. P. NIGHT WIRE.)  
PHILADELPHIA, June 9.—Honus Wagner, the veteran shortstop of the Pittsburgh National League team, today made his 8000th hit in seventeen years of major league baseball. He was a two-bagger off Pitcher Mayer of the Philadelphia, with no one on base, in the ninth inning. He subsequently scored Pittsburgh's only run of the game on two outs. He was applauded when he made the hit and again when he crossed the plate. Wagner, when the series opened here, with Philadelphia last Friday, had 1993 hits to his credit. He failed to connect in the first two games, but made it 1994 yesterday. Today's hit came on his last turn at bat.

## BEAVER BATTERS BATTER OAKLAND.

PORTLAND SCORES FOUR TO ONE  
VICTORY WHILE KRAUSE  
FOOLS VISITORS.

(BY A. P. NIGHT WIRE.)  
PORTLAND (Or.) June 9.—Portland defeated Oakland today, 4 to 1, in the visitors' initial game under the management of Tyler Christian. The defeat was due to the effective pitching of Krause of Portland, and to Lober's batting in the first run with a two-bagger and the second with a home run over the right-field fence.

## STRACHAN FORFEITS TITLE.

(BY A. P. NIGHT WIRE.)  
SAN FRANCISCO, June 9.—John R. Strachan, national golf champion, and Clarence Griffin, also of San Francisco, national play court doubles champion, will forfeit both his titles this year by default. Strachan will prevent him from going east this summer. Maurice E. McLoughlin, national singles and doubles champion, will leave here early next month for the Longwood tournament, and Thomas Bundy of Los Angeles, who shares the doubles title with him, will follow shortly.

## NEWEST SHAMROCK BEST OF SERIES.

(BY ATLANTIC CABLE AND A. P.)  
SOUTHAMPTON (Eng.) June 9.—The first actual racing test between Shamrock IV, Sir Thomas Lipton's new challenger for the America's Cup, and his older Shamrock took place today over a thirty-mile course. Shamrock IV finished two minutes and fifteen seconds, elapsed time, ahead of the other, but the difference by no means represents the full measure of the challenger's superiority.

and in accordance with the judge's instructions this was sealed and will be read in court tomorrow. It was learned, however, after the jurors had left for their homes, that they voted that Hofman is entitled to the full amount he sued for.

One juror contended that Hoffman should have sued the Pittsburgh club instead of the Cubs because when he was sold to Pittsburgh he played there a few games, then was laid off for the rest of the season. President Dreyfuss of that club refused to pay him for the full season.

## YANKEE CUP DEFENDERS GROOMED FOR RACE TODAY

**IGHT WIRE.]**

The race tomorrow will be over the regular America's cup course of thirty miles.

Interest in the race will center largely in the Defence. The Tri-City boat practically is an unknown quantity. Since a couple of short trials in the sound, her rig, which was the loftiest of the three, has been cut down materially. This change is expected not only to add to the stability of the sloop, but will decrease her sail rating, so that the Vanitie will be obliged to give her nearly two minutes

The Resolute will still rate at the bottom of the cup class, but will receive less than a minute from the Defiance.

FLAMES TRAP  
HOTEL GUESTS.Firemen With Ladders Take  
Victims to Street.Permit Issued to Rebuild  
Hotel Maryland.Fire-Fighting Force Will Be  
Investigated.

(LOCAL CORRESPONDENCE.)

PASADENA, June 9.—Trapped in their rooms by smoke that filled the halls of the Sunnyside Inn, No. 38 North Marengo avenue, guests at 3 o'clock yesterday morning recoiled from the choking barrier they met outside their doors and rushed to the windows, where they clustered in terror until firemen with ladders had carried most of the thirteen upper-floor roomers to the street. The first to be warned made their way down the stairs to the street. One slight injury resulted when a falling ladder struck Assistant Chief Holmes.

An electric toaster was responsible for the fire. One of the boarders returned home after supper was over and made herself some toast. She retired without turning off the current and the heat from the toaster finally set fire to a mat and then to the dining-room table. The fire smoldered a long time before the flames broke out.

Mrs. S. E. Cook, proprietress of the place, said yesterday that she was unable to estimate her loss. The building is owned by R. H. Pinney, who estimates the damage at \$1500. The loss is covered by insurance.

**HOTEL MARYLAND AFTERMATH.**  
Two masters in connection with the recent Hotel Maryland fire came to a head yesterday. D. M. Linnard, president of the Pasadena Hotel Company, appealed to the City Commission for permission to rebuild the hotel, and obtained it. The Commissioners decided to hold an investigation of the fire department as the results of complaints that have been made respecting the way in which the Maryland fire was fought, and set the afternoon of the 17th inst. as the date for the hearing.

The investigation is to be made at the request of Chief Clifford of the fire department. He determined some time ago, in view of the criticism that he was receiving, to ask the Commissioners for the investigation, but waited until the insurance adjustment should be made before doing so, according to City Commissioner Allen.

The investigation will be conducted at the City Hall and City Commissioner Loughery of the fire and police departments said yesterday that the Commission will at that time be pleased to hear any criticism that is to be made of the manner in which the work of the department is carried on.

Mr. Linnard asked for a permit to make repairs and to rebuild the Hotel Maryland, using the estimated cost of the improvement at \$200,000. Floor plans have been filed with the city by Myron Hunt, a local architect. It is the intention to have the new building complete and ready for occupancy by the opening of the fall tourist season.

**TREE FOR CHARITY.**  
The second annual spring Christmas tree at the Neighborhood Congregational Church attracted a large crowd of well-known Pasadena yesterday afternoon. A great sea of people on the lawn, one of four in the city, was hung with presents and tipped with an American flag, and on the grass underneath were arranged booths at which candy and fancy wares were sold.

A veritable Christmas spirit pervaded the premises and the festive

GRASSHOPPERS  
KILL GRAPES.

(BY A. P. DAY WIRE.)

HANFORD, June 9.—A grasshopper which has proved immune to all sprays tried is doing serious damage to the great vineyards of Kings and the southern portion of Fresno counties. The insect sucks the juice of the leaves, which fall, leaving the unprotected grapes to burn in the sun. Growers say that unless the problem of eradication is solved soon the crop will be 50 per cent. short.

most of the afternoon. Lurcheon was served at a long table under the trees and many of the residents along Orange Grove avenue and nearby streets came in their automobiles for their noonday meal.

The "present" on the tree were sold at auction, the returns to apply to the fund with which the new Neighborhood House is maintained. The proceeds from sales made at the various booths also will be used for this purpose.

Mrs. L. P. Hitchcock, wife of the pastor of the church, was the housewife and she was assisted by a bevy of charming young maids and matrons. The first of the summer Christmas tree was held a little over a year ago and was patterned after that which is annually arranged in Maine by Kate Douglas Wiggin, the authoress. It was such a success, and caused so much pleasant comment, and served in such a valuable way as a source of revenue for the social work which the church is doing, that it was determined it should be a regular annual institution.

**CITY PREPS.**  
Plans are on foot for a decided extension of the ornamental street lighting system of the city. Cluster lights may soon be installed on East and West Colorado streets, beyond the present lighted portions, as well as on South Fair Oaks avenue, El Molino street, St. John avenue, Madeline drive, electric portions of Union street, Bellefontaine and Oakland avenues and Allendale road.

The Board of Education yesterday decided that the new school building at Lamanda Park shall be a one-story structure.

**HEARS CAR PROTEST.**  
(LOCAL CORRESPONDENCE.)

SOUTH PASADENA, June 9.—State Railroad Commissioner Max Thelan today held a hearing in the City Hall of petitioners against the Pacific Electric Company, in which it was asked that all the main line cars stop at La Benda station. The matter was taken under advisement. The complaint made against the Pacific Electric Company is that the local cars stop at La Benda station, at Garfield avenue and Huntington drive, and it is requested that all cars make that point a stopping place, at least on signal. Commissioner Thelan stated that in San Francisco, where he resides, that people have no objection to waiting twenty minutes for a car, and also intimated that the petitioners were unfair in their demand that all main line cars stop at Garfield avenue, "rapid transit," said the commissioner, "is what helps to develop outside towns." It is expected that the finding will be handed down in the near future.

**NAME TOWN MANAGER.**  
(LOCAL CORRESPONDENCE.)

GLENDALE, June 9.—At the meeting of the Board of Trustees last night T. Watson was appointed manager of the town. His affairs will now be run on a strictly business plan. Mr. Watson's salary will be fixed at the next meeting of the board. Mr. Watson resigned as a member of the board, having served as its president ever since he became a member, five years ago. George E. Williams succeeded him as president.

COLORADO AT  
FLOOD STAGE.Water Near Levee's Top in  
Volcano Lake.Large Crew Will Strengthen  
Barrier Today.Three Water Districts May  
Be Cut Off.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

CALEXICO, June 9.—With the waters of the Colorado River rising rapidly and the levee along the north-east edge of Volcano Lake within eight inches of being overflowed by the backwaters of the lake, considerable apprehension is felt in the valley over the water situation. There is no danger of an inundation in Imperial Valley. Temporary cutting off of the water from the lands west of New River is the worst that could happen.

Tomorrow a large crew of laborers will be at work along the three miles of levee which is endangered and 5000 sacks will be on hand to be filled with sand to prevent the water of the lake from overflowing the levee.

Last night the water in Volcano Lake rose seven inches and is now within eight inches of the top and is still rising. Brig.-Gen. W. L. Marshall, engineer of the Department of the Interior, and in charge of the work, which is about completed on the levee along the Colorado River proper, about six miles southwest of Andrade, sent a telegram to the district irrigation board today advising that the situation is critical and that the Colorado is now 37.4 feet deep and that by Friday it will be at least 38.5 feet deep.

He says that the river this year will have a flow of 25,000 second feet more than ever before. This will make a flow of 140,000 second feet and that the levee which protects the valley from the water of Volcano Lake will be overflowing, unless immediate steps are taken to build up the levee.

A vigil is kept tonight along the Volcano Lake levee, where the principal danger lies. Tomorrow a patrol will be kept every 200 feet, and a large force will be at work building the levee.

This stretch of land is about six miles west of south of Coachman, Mexico. Volcano Lake is fed by Bee River, an arm of the Colorado. This levee will be raised to from two to three feet for three miles and will make a flow of 140,000 second feet and that the levee which protects the valley from the water of Volcano Lake will be overflowing, unless immediate steps are taken to build up the levee.

Gen. Marshall, who is in Yuma, reports that the river is running straight past the levee just repaired about six miles south of Andrade, and that there is no cutting of the levee evident, and consequently little danger there. Reports here are that the levee between Yuma and the Laguna Dam, Arizona, had broken out in places and that the water is beginning to cut the levee at Blythe.

A train bound for Potholes, Ariz., yesterday, had to turn back on account of numerous breaks in the levee.

The result of the water overflowing is hard to conjecture, but it will probably wash out Encina flume and practically all of the country bridges along New River. Water districts Nos. 6, 9 and 12, would be cut off from water if Encina flume goes out.

Every effort is under way to get immediate action. This effort is made by individual farmers and business men. A meeting was held tonight, and each farmer will contribute \$200 and a team. Twenty teams will be on the way to Volcano by morning.

Dr. Stanwood was a native of Newburyport, Mass., until 1882, when he came to this State. He located in San Diego county, where he remained for a year. He later lived in Redwood City, Cal., and then in San Francisco, where he was influential in securing the final rights of way for the Santa Fe Railway through that city.

Some time later he came to this beach and conceived the idea of making a city on the sand dunes, where Venice and Ocean Park now are. The land was purchased for \$25,000, a wharf was built, and the Santa Fe line established between the beach and Los Angeles. Dr. Stanwood had been active in big sales of land on this bay, and many of the largest dealers of the local O. C. Elks, and of the Modern Woodmen, and was for a time president of the Venice Chamber of Commerce.

Deceased is survived by two sisters, the Misses Grace and Sarah, of this city, and a brother, Edward, of Lynn, Mass.

Thursday morning funeral services will be held from the St. Augustine Episcopal Church, Santa Monica.

ARREST INTERRUPTS  
FASHIONABLE PARTY.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SANTA BARBARA, June 9.—A gay swimming party of society folk was rudely broken up on the beach near Miramar this morning when Chief of Police Ross placed under arrest A. Cortes Skinner of Winnipeg. Skinner is being held upon instructions from San Francisco, where a warrant was issued charging that he defrauded the Hotel Stewart out of a board bill.

Skinner arrived here the latter part of last week and, after stopping a couple of days at the Potter, where the fashionable Miramar resort, he is alleged to have paid his hotel bill in San Francisco with a draft for \$100, the draft proving to be worthless. He came to Santa Barbara with \$50, part of the money secured on the draft, and, being well dressed, soon caught on with the better class of tourists.

When Chief Ross apprehended Skinner in the surf this morning and started to read the warrant to him the young Englishman protested, stating that it was embarrassing to have his new friends know the contents of the document. As a result, the officer followed him to the bath-house, where the paper was read, and the young man placed under arrest. He is 29 years old.

Major Among Those Ejected by Order of Court—Pioneer of Beach Property Development Passes Away Suddenly Following Stroke of Apoplexy.

(LOCAL CORRESPONDENCE.)

SANTA MONICA, June 9.—Elgar D. Byron, supposed medium and private detective, was bound over to the Superior Court this afternoon in the Police Court. He was charged with sending and delivering a threatening letter to Mayor T. H. Dudley, with the intent to extort money. In default of \$5000 bail, Byron was this afternoon returned to the County Jail in Los Angeles. W. H. Anderson, for the defense, tried to have the bail made lower because the defendant is suffering from confinement. Deputy District Attorney Richardson, who is handling the prosecution, said a request had nearly been made to have it raised.

Owing to the large number of spectators the court moved upstairs to the County chamber. Soon this room became so crowded that Attorney Anderson requested the court to order everyone out but the parties to the case. The court complied with the request. The press representatives were allowed to stay.

Milton Carlson, handwriting expert, testified. Constable Minger, who was at first reports said to have been one of the alleged blackmailers, and who later played so important a part in the arrest of Byron, told of the letter which was found under the door of the Mayor's office, and which was said to have been written by Mr. Byron. The subject of the direct examination, Mr. Minger stated that he had seen the letter, and that he had delivered it to the Mayor. The attorneys for the defense repeatedly tried to get with Mr. Minger, but the court refused to allow them to do so. Testimonies with Mayor Dudley, after the latter appeared under his door, but the constable could not remember any exact words.

**BEACH PIONEER DIES.**

John Adkinson Stanwood died suddenly here early this morning at his home, No. 1257 Fourth street, at the age of 56. After having spent the evening with friends, Dr. Stanwood was feeling well, and after retiring suffered a stroke of apoplexy, and passed away shortly after.

Dr. Stanwood was a native of Newburyport, Mass., until 1882, when he came to this State. He located in San Diego county, where he remained for a year. He later lived in Redwood City, Cal., and then in San Francisco, where he was influential in securing the final rights of way for the Santa Fe Railway through that city.

**POISONER, ARRAIGNED, SHRINKS FROM CROWD.**

(LOCAL CORRESPONDENCE.)

SAN DIEGO, June 9.—Heavily veiled and timidly shrinking from the gaze of the curious, Mrs. Georgia Simmons Burke was arraigned before Justice of the Peace Keating this morning, charged with attempting to kill by poisoning Amy and Ada Dase. She was held on \$5000 bail on each complaint, one for sending poisoned candy to Amy and one for sending a box of candy to Ada Dase. Each complaint charged her with mailing the candy and that of mixing poison with a food.

Supported by Capt. Joe Myers and Mrs. Lydia Uhrig, a detective of the Harris agency, she was taken from the courtroom to the County Jail, where she was joined by her husband.

For more than an hour Mr. Burke stayed with his wife, patiently answering the nervous woman's inquiries.

"What do you think they will do?" "What will the children do?" and other questions she asked continually. Mrs. Uhrig, Detective Myers and the officials treated the woman in the kindest manner possible.

The quiet, kindly manner of her husband, a dignified, gray-haired man,

with gentle manners, was perhaps the greatest comfort to Mrs. Burke. Mr. Burke says he knows her action was due to her diseased state of mind, as she has been extremely nervous for four or five years. He stated he was here to assist her and to report to Attorney Joseph Scott, who will handle her case. He could not say whether he would be able to furnish her with the lawyer.

While endeavoring to protect and support his wife in every way possible, he appeared to greatly dread publicity and but few persons have known that he was in the city.

Mrs. Burke will be given a hearing June 18.

PASTRESS TO  
PILOT CHURCH.

(LOCAL CORRESPONDENCE.)

COLTON, June 9.—Marrying the June brides, filling the pulpit on Sundays, making calls on the sick and otherwise fulfilling other pastoral obligations will henceforth be the work to which Miss Hester Alway of Bloomington is looking forward with much pleasure. A month ago the Bloomington pulpit became vacant. The trustees of the church sought in vain for a man who would fill the requirements. Along came Miss Alway. Sunday she had her "tryout," with the result that she got the job on the spot, and it is said that every man in the little community is now buying a new Sunday-go-to-meetin' suit for future use.

Those who heard the new pastress report that for red-hot sermons other clergymen had best look to their laurels. Miss Alway has moved into the parsonage, and from all indications does not expect to do her work in any half-hearted way.

## SUMMARY OF THE DAY.

The Municipal Charities Commission asked the Police Commission yesterday to honor the former commission's actions on dance permits the same as though they had originated in its own body. The Police Commission is not inclined to surrender this authority, although two ordinance provisions cause mix-ups that result in friction.

The Finance Committee of the Council decided yesterday to recommend that there be issued at once \$1,500,000 of the \$5,000,000 power bonds.

The Police Commission decided yesterday on a policy of issuing no more restaurant liquor permits until there shall be vacancies in the existing lists.

An alleged member of the bunco team is on trial in Judge Clegg's court before a jury charged with grand larceny. The alleged victim is a farmer from Illinois.

## CONFLICTING IN AUTHORITY.

## ONE BODY MAY ISSUE PERMIT ANOTHER REFUSES.

Municipal Charities Commission Asks Police Board to Honor its Decisions on Benefit Dances as Though Same Were Later's Own Actions.

The controversy raised several days ago as to the authority of the Municipal Charities Commission to prevent a public dance being held after a permit therefor has been issued by the Police Commission, when a benefit dance for the Peter Pan Home was stopped, is still unsettled.

The Municipal Charities Commission yesterday appealed to the Police Commission to take a stand that will make the former board the arbiter in similar cases, and to honor the actions of the Charities Commission the same as if they were the original acts of the Police Commission.

There is clearly a conflict of authority in the two ordinances bearing on the issuance of permits. Ordinance No. 27,160 (new series) provides that a written permit must be secured for public dances. Ordinance No. 28,255 (new series) provides that permits must be secured from the Municipal Charities Commission for "any entertainment, fair, bazaar or benefit in the names of charity or philanthropy."

This permits such instances to occur as that of the Peter Pan Home dance estoppel and the consequent friction between the Municipal Charities Commission and the Police Commission are not inclined to surrender the authority conferred upon that board by the ordinance, while the Municipal Charities Commission holds that in order to carry out the intention of the ordinance under which it would issue the permit to pass upon the propriety of issuing permits for the same dances for which the Police Commission may have issued permits.

In its communication discussing this proposition and resolution adopted on this subject, the Charities Commission says:

"The Municipal Charities Commission is desirous of and is charged with the duty of investigating all charities to be benefited by such public charity dance and its promoters, and such investigation in each instance will be thorough and exhaustive."

"Therefore, Be It Resolved, That the Board of Police Commissioners be requested to refer to the Municipal Charities Commission in the future all applications for permits to hold or conduct, or assist in conducting, any public charitable or philanthropic dance, and give full honor to the action of the Municipal Charities Commission thereon to the same extent and with like effect as if the Board of Police Commissioners were acting personally in the first instance."

APPROVE AMENDMENT. CITIES TO STAND TOGETHER. Assistant City Attorney Robertson returned from the north yesterday and stated that the Board of Supervisors of San Francisco has approved the draft of the proposed city-county consolidation amendment, based on provisions for general legislation. That is, all counties and cities of the State will have the opportunity to advance their consolidation projects on the same basis, and no special provisions are included that would prevent San Francisco at some future time from crossing the bay and absorbing some of the other bay cities.

Oakland city officials were desirous of having special provisions made that would prevent this. Apparently they were afraid of the vote of the city of Oakland, as a majority vote of Oakland would be required in any instance before such a combination of that city and San Francisco could be accomplished.

The proposal was made to Oakland that the vote on consolidation be two-thirds, but the officials of that city did not see fit to compromise on this proposition. The result will be, undoubtedly, that the city of San Francisco will stand together in supporting the amendment providing for general legislation, while it is probable the Oakland city officials will oppose it.

The next step will be to submit the draft to the Los Angeles City Council of Los Angeles for formal ratification, and then petitions will be put into circulation, so that the amendment may be put on the ballot at the next general election. These petitions must be filed with the Secretary of State by August 15. San Francisco and Los Angeles will jointly bear the expense of the petition circulation.

L-Road FRANCHISE. FINAL AGREEMENT REACHED. Members of the Public Utilities Committee of the City Council, the City Attorney and President Shoup of the Pacific Electric Company, held another conference yesterday on the terms of the notice of sale of the franchise for an elevated structure to connect the Sixth-street depot with the city-owned line on San Pedro street, and to form, eventually, a link in the elevated structures that will reach out to the east and south to handle the interurban traffic of the Pacific Electric.

An agreement was reached which provides that should the city take over the elevated structure within the forty years' tenure of the proposed franchise, there shall be no value attached to the franchise, but the Pacific Electric Company will not be precluded from instituting suits for damage to the remainder of its system by such taking over of what would be really its terminal facilities.

The new agreements are being

drafted by the City Attorney and will be submitted to the Public Utilities Committee today. It will probably go before the City Council tomorrow morning.

## WAITING LIST FOR LIQUOR PERMITS.

The Police Commission decided yesterday to adopt a policy of granting no new restaurant liquor permits until vacancies are created in the existing lists. A waiting list was established, and the application of Sam Amatore for a No. 2 restaurant liquor permit for No. 427 East Seventh street was the first to be placed on the new list.

The commission is deeply interested in the outcome of legislation proposed for increasing the liquor revenues of the city. The new licenses will be issued the first of July, and it now seems probable that they will have to be issued under the existing schedule of license fees, as the proposed ordinance increasing these fees could not become effective by that time unless containing the emergency clause and there appears to be no way in which this situation can be declared an emergency.

## POWER BONDS.

WILL ISSUE FIRST BLOCK. A conference between the members of the Finance Committee of the City Council, the City Attorney, the City Auditor and Chief Electrical Engineer Scattergood of the Los Angeles Aqueduct Power Bureau, held yesterday, resulted in an agreement to recommend the immediate issuance of \$1,500,000 of the \$5,000,000 power bonds authorized by the people at a recent election.

It is proposed to undertake to market this block of these bonds as soon as possible, and to use \$1,500,000 of the amount for the completion of power plant No. 1 and the transmission line to the substation at the city boundaries, and to use the remaining \$3,500,000 for preliminary work on the project of providing for a distributing system, probably the undertaking of acquiring the distributing system of the Southern California Edison Company through condemnation proceedings.

The bonds are to run thirty-eight years, and the first will become payable in 1917. A sinking fund will be created in the meantime. The plan proposed will retire about \$150,000 of the bonds each year after July 1, 1917. The interest rate is 4 1/2 per cent.

## City Hall Records.

A. J. Larsen of the assessment bureau appeared before the City Council yesterday to make a plea for judicial equipment that will materially aid in carrying out the provisions of the recently adopted ordinance requiring all tax bills to show the assessments that stand against each piece of property.

Mr. Larsen stated that to begin with his department would require approximately 60,000 cards for its card index and filing cabinets; the total cost of this equipment is \$120,000. The application of the Serial Society Club for a liquor permit for No. 111 West Third street was filed by the Police Commission yesterday.

The Chief of Police was granted a twenty-day leave of absence yesterday to attend the International Association of Chiefs of Police gathering in Grand Rapids from the 16th to the 19th inst.

A public hearing on the proposed restriction of the style and size of liquor signs will be held by the Police Commission this morning at 10 o'clock.

A petition for the closing of West Seventh street, between Hill and Olive, for the purpose of widening the street, was presented to the commission yesterday and referred to the Chief for checking the frontage represented.

A schedule of vacations for members of the Council was presented at yesterday's session. It provides as follows: President Whitten is to have his vacation from June 15 to 31; Councilmen Conwell and Roberts, July 1 to 15; Councilman MacDonald, July 15 to 31; Councilmen Wheeler and Bryant, August 1 to 15; Councilmen Betkowski and Williams, August 15 to 31.

## TELLS JUST HOW IT WAS DONE.

THE FARMER, THE WAD, THE BUNCO MAN—BINGO!

"Nigger" Byrne Goes to Trial on Swindling Charge and Ancient Race-Track Game Is Given a Spectacular Air in Court—Says He's Not the Man.

A graphic recital of the events leading up to the introduction of G. P. Friess, a farmer from Muscatine, Ill., to a phony pool room in Venice and the scientific manner in which he was relieved of \$5140 are given by Deputy District Attorney Asa Keyes to the jury trying James W. Byrne, a member of the so-called bunco trust, in Judge Finlayson's court yesterday.

Mr. Byrne was arrested last September by Detectives Ingram and King, after a pursuit of months. He is alleged to have acted as telegraph operator to Lee Rial, a confederate, was convicted and sentenced to San Quentin for ten years. A Mr. Reed, the mysterious man who scraped acquaintance with Mr. Friess, has never been located.

Events moved fast and furious for Mr. Friess when he arrived in Los Angeles to see a live city. He got here February 4, 1913, and three days later the mysterious Mr. Reed spotted him at the Pacific Electric station. The following day they went to Venice at Mr. Reed's invitation, and while rambling around Mr. Reed's house, Mr. Friess was using an assumed name.

It was easy sailing from then on. Mr. Rial was induced to take small bets from Messrs. Reed and Friess to place on the races. He returned them the winnings. Larger bets were then made and again luck was with him. He had inside information, he said, and proved it by showing them a code telegram which Mr. Keyes says he will prove was a fake.

Finally, after another winning, Mr. Rial insisted upon Mr. Reed and Mr. Friess placing a bet for him, and this proved the alleged trust's undoing. Mr. Friess put up \$40 cash, a draft for \$100 and later obtained a certificate for \$5000. All of this was to show that if he lost he could have made his check good which he had previously drawn.

Mr. Reed lost the final bet by placing it on a horse to win instead of place, and a picturesque fight ensued. Mr. Rial "punching" Mr. Reed for not carrying out his instructions. He accompanied Mr. Friess back to the city and while endeavoring, it is alleged, to take him out of town, Mr. Rial was arrested.

This is the groundwork Mr. Keyes

laid to convict Byrne of grand larceny under the indictment of the County. He will probably go before the City Council tomorrow morning.

Mr. Friess, who was a rancher of San Fernando and that while he at one time played the races, he was not in the business at the time Mr. Friess alleged he was swindled. Furthermore, they will try to show that it is a case of mistaken identity.

## ALL IN HIS EYE.

CHAUFFEUR'S NEAR-WEALTH. Herman C. Silber, who wooed and won Lillian Silber, posing as the son of a wealthy father and the nephew of a rich old uncle, wisely stayed away from Judge Monroe's court yesterday when his wife's annulment suit was tried. He no doubt would have been asked embarrassing questions by the court. His wealthy connections were a romance, it turned out, and he stood revealed as a chauffeur with a lively imagination.

Mrs. Silber, young and attractive, married him after three weeks' acquaintance. It was an elopement. February 19, last, when the great storm broke over the county. When she proudly announced her marriage to her parents, her father began to investigate his son-in-law's standing. He wrote to Mr. Silber's father and he came back with a letter in moderate circumstances.

The rich uncle who Mr. Silber said lived in a hotel, was called upon, and he promptly denied the relationship. Moreover, he declared Mr. Silber was his chauffeur and had been using his machine to make money. He was arrested at night. This machine, Mrs. Silber testified yesterday, was flashed upon her by her adorer as his own.

Judge Monroe denied the decree. To grant one on the evidence adduced, he said, would establish a precedent. Moreover, Mrs. Silber admitted that she had told her fiancé how much her clothes cost, he promising to supply her with expensive costumes and surround her with luxuries.

"Why did you tell that?" asked the court. "I don't know," she replied. "But I did, and also the living I was accustomed to."

BOY SOLDIER DESERTS. ARRESTED AS A BURGLAR. Tired of fighting after two years' service, Eduardo Leal, 14 years old, jumped from the frying pan into the fire, when he came to Los Angeles from San Francisco, where he had been burglarizing a North Main-street store and will be arraigned before Judge Wilbur this morning.

Young Leal was picked up by Probation Officers Murphy and Reyes, who learned from the prisoner his only-adopted ordinance requiring all tax bills to show the assessments that stand against each piece of property.

He told them that he had served under Gen. Joaquin Telles, having enlisted at the age of 12. He said he deserted the army because he was tired of fighting. He was arrested at a hotel where he was staying. He was taken to the police station and will be arraigned before Judge Wilbur this morning.

ON PROBATION. Edna Smith, the girl burglar of Long Beach, who stole a valuable article from the city of an apartment house, admitted her guilt recently before Judge Craig. Yesterday she was admitted to probation for two years, upon her promise never to take anything that does not belong to her.

INCORPORATIONS. Los Angeles Cactus and Coker Ranch, incorporated, E. C. Webster, Andrew F. West, J. P. Reynolds, H. J. Leland, William H. Hallett; capital stock, \$75,000, subscribed, \$21,600. Oil Well Equipment, incorporated, J. J. Leland, H. J. Hallett; capital stock, \$75,000, subscribed, \$21,600. Oil Well Equipment, incorporated, J. J. Leland, H. J. Hallett; capital stock, \$75,000, subscribed, \$21,600.

HELP FOR JUDGE. BUT ITS LEFT-HANDED. In view of his campaign for reelection to the bench, Judge Monroe had cards printed. When he reached home last evening Mr. Monroe, who had been out for a long time, found a card from Judge Wilbur. It was a card from Judge Wilbur. It was a card from Judge Wilbur. It was a card from Judge Wilbur.

COURTHOUSE NOTES. BREVITIES MISCELLANEOUS. GIRL'S CHAMPION. Claiming no relationship, but an interest in the girl, Mrs. P. P. MacDonald, who is the mother of Miss Ada Leach, 17 years old, basing the application on the ground that Miss Leach is the daughter of Mrs. Ellen Ling of Eagle Rock, do not get along well together. Mrs. Ling, through her husband, had previously filed a dependent charge against Ada, and the latter is now in the care of the juvenile court. The guardian application followed this step, and the prospects of a merry war is on. Mrs. MacDonald has retained Attorney Donnelly to represent her in court.

VALUES NAMED. Prices ranging from \$1250 to \$1500 were placed by experts on the fifty-three lots taken from the property of Laura R. Hughes on the south side of Twelfth street facing Broadway, in the city's condemnation suit to open Broadway from Tenth street to Eleventh and Twelfth to Pico, on trial in Judge Wilbur's court. This was the only property contested yesterday, most of the time being taken up on law points. Butterworth, Culver and Carmichael said the land was worth \$1500. They represented the property owners. Crippen and Garner for the city named \$1300 and \$1250 respectively.

DAMAGES AWARDED. A. W. McAllister, who sued C. L. Powell for \$200 damages because Powell had knocked out a tooth and by reason of that McAllister lost a professional engagement as a singer, was awarded \$500 damages by a jury in Judge Wilbur's court yesterday. The alleged encounter occurred at Powell's office.
